ScreenLogic 2 Update

Steps For Updating ScreenLogic 2

Uninstall existing ScreenLogic Connect

Go to Website www.pentairpool.com – new software

Update Protocol Adapter
Update Protocol Adapter

**VERY IMPORTANT:**

Disable your computers wireless connection

Connect your laptop directly to the same router as your protocol adapter with an ethernet cable

You may need to ask the home owner to show you where the router is located (Multiple Routers?)
Download New Software

Locate the two files on your desktop
Update Protocol Adapter

Double click on the Pentair Update file on your desktop. This file is used to update the Protocol Adapter.
Update Protocol Adapter

Click on “run” to start the update
Update Protocol Adapter

Highlight the local system by clicking on the Pentair: xx-xx-xx in the local Systems window

Click on “start”
Update Protocol Adapter

The system will start to update
Update Protocol Adapter

Wait until you see a message that says “System upgrade successful”. This may take a few minutes. Click “OK”
Update Protocol Adapter

If this window re-appears click on “cancel”
