# Learn to Earn

Gain wisdom, and profits,  
from today's high-tech service  
and replacement products

2011–2012 Equipment Training Series

6/11 Part # P4-036 Printed in USA ©2011 Pentair Water Pool and Spa, Inc. All rights reserved.

## The technical training to make you rich with knowledge

Take our latest training workshops and you'll graduate with a wealth of know-how. Learn about the latest developments in controls, pumps, heaters, lighting, filtration, water features and chlorine generation. Our experienced instructors, detailed course materials and training aids will give you the real-world techniques and understanding to specify, install, troubleshoot and service today's most advanced pool equipment...profitably.

### Topics May Include:

- Advanced water features
- Automatic chlorine generation
- Automation
- Basic electrical theory
- Basic hydraulics and equipment sizing
- Heater installation and repair
- Heat pump installation and operation
- LED and halogen lighting safety and installation
- Variable frequency drive pumps

### What You'll Receive:

A training kit that includes course outlines and manuals, a calculator; pen and specialty tool assortment.

Workshops are offered in one-day, two-day and four-day formats. Topics presented at any particular workshop are based on the length of the workshop and regional requirements.

## Workshops that educate you for major profits

### Variable Frequency Drive Pumps

Learn the fine points of today's most important development in pool equipment. Discover how VFD pumps work, how to apply them, how to program for optimal energy efficiency – and why they are the single biggest and most profitable retrofit opportunity in industry history.

### Basic Hydraulics and Equipment Sizing

Learn how to calculate volume, turnover and dynamic head in addition to pump and filter selection, plumbing, pipe sizing and system head curve plotting.

### Automated Controls

We'll take you through an actual planning, designing, and programming project—you'll master the complete process, from scoping and sizing the job to final programming.

### Heater Installation and Repair

Topics include the gas, air and electric requirements for proper heater operations as well as troubleshooting techniques.

### Basic Electrical Theory and Lighting

We'll cover the fundamentals of electricity, electrical grounding and bonding, circuit testing and lighting safety, and installation of the industry's brightest and most vibrant LED and halogen color-changing lights.

*Additional topics may be covered as time permits.*

RSVP today! **Class sizes are limited. Receipt of payment guarantees your reservation.**
