

ABG Series™

Pumps for Aboveground Pools
by Sta-Rite®

Long-distance runner

Here's a pump that's built for the long-run! ABG Series™ aboveground pool pumps are engineered for peak performance and year-after-year reliability. The ABG is constructed of an exclusive thermoplastic composite resin specially formulated to endure weather extremes and ultraviolet rays. With their proven track record, ABG pumps come highly recommended by pool professionals for their performance, durability and extremely quiet operation.

- The large trap holds more dirt, and the “clear-view” lid lets you check for debris without lifting a finger.

- Rugged construction and a motor rated for continuous duty deliver years of dependable service.
- Precision manufacturing of internal components and a smooth-running electric motor make pump operation extremely quiet.
- Specially-designed wear ring prevents large debris from impeding water flow or locking up impeller.

If you're looking for a pump that can go the extra mile, the ABG is a runaway winner:

ABG Series™

Pumps for Aboveground Pools

So easy, so quick

An easy twist of the wrist opens the “clear-view” trap lid. It’s that fast!

Easy service

Quick-disconnect plumbing union allows faster disassembly.

Extremely rugged

Powerful, all-weather motor is designed for the toughest duty.

Filled to capacity

Large-capacity trap collects more dirt, which means a lot less maintenance.

Engineering marvel

Innovative hydraulic design moves more water with less effort, which reduces operating costs and provides quiet operation.

Top quality, top rating

The reputation Sta-Rite® holds for top-of-the-line equipment goes unchallenged in the pool industry. And we’ve achieved that recognition by gaining the confidence of pool pros and ultimately satisfying pool owners. Each pump feature has been designed to answer the needs of today’s savvy buyer: high performance, quiet operation, low maintenance and reliability. We got it right on all counts.

Great performance, great value

Superior flow dynamics effortlessly move more water, which lowers operating costs. The ABG Series™ pump is an economical performer and is considered one of the best values in the aboveground pump market.

Easy maintenance

When cleaning is required, an easy twist of the wrist gives you access to the ultra-sized strainer basket.

Simply empty the basket, re-attach the “clear-view” trap lid and twist it to the right.

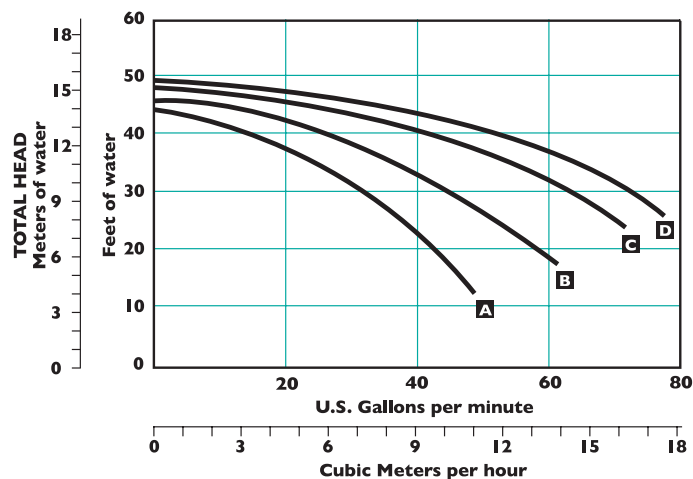

Built for the long run

Only the finest materials are used to build lasting quality into each pump. On the outside, an exclusive composite resin weathers temperature extremes and will never corrode. On the inside, a heavy-duty shaft seal and impeller stand tough against harsh chemicals.

Performance Curves

Available in 1/2 to 1 1/2 HP, and single- and two-speed models.

KEY

A. ABG4C (1/2 HP) B. ABG4D (3/4 HP) C. ABG4E (1 HP) D. ABG4F (1 1/2 HP)

One-year limited warranty. See warranty for details.
