

E-Z Vac® Aboveground Pool Cleaner

by Pentair Water Pool and Spa®

The world's best built aboveground pool cleaner

The Kreepy Krauly® E-Z Vac® cleaner is designed just for aboveground pools, but its design is based on the same time-tested platform as the most popular suction-side cleaner in history: Kreepy Krauly® Classic™ inground cleaner. E-Z Vac features:

- Superior hydraulic design delivers optimum vacuuming power, and true random-pattern coverage makes sure floor is thoroughly vacuumed.
- Simple design for long, dependable life—unique “flapper” is the only operational moving part.
- Virtually maintenance-free—no wheels or gears to jam, no diaphragms to replace, no bags or compartments.
- Free-skimming adjustable valve regulates water flow to assure proper cleaning speed while allowing skimming of surface debris—both cleaning jobs are completed at once.
- Works flawlessly in both flat-bottomed and dish-shaped pools with a banked or radius cove.
- Installs in minutes to your skimmer without tools.

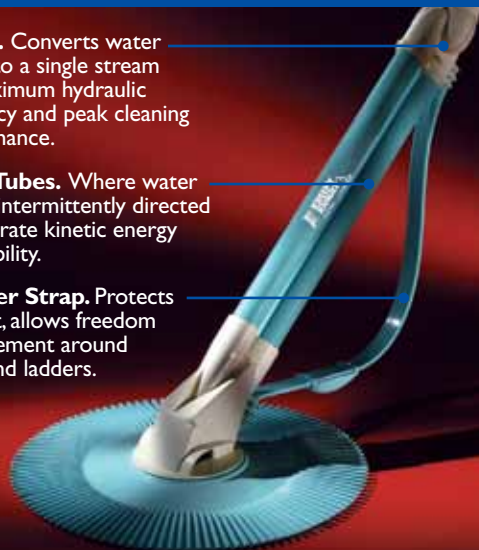

The brand of choice for more than
3 million pool owners worldwide.

E-Z Vac[®] Aboveground Pool Cleaner

Swivel. Converts water flow into a single stream for maximum hydraulic efficiency and peak cleaning performance.

Drive Tubes. Where water flow is intermittently directed to generate kinetic energy for mobility.

Bumper Strap. Protects the unit, allows freedom of movement around steps and ladders.

Adjustable Regulator Valve. Sets ideal travel speed for more thorough cleaning.

Flapper. The only operational part is housed inside the unit. Divides water flow to help propel the E-Z Vac[®] cleaner.

Eight reasons why E-Z Vac is the best aboveground cleaner you can buy

- It's thorough. The superior hydraulic design of the Kreepy Krauly[®] E-Z Vac[®] aboveground pool cleaner delivers optimum vacuum power; and its true random-pattern coverage makes sure your pool floor is thoroughly vacuumed.
- It's dependable. E-Z Vac's simple design ensures a long, dependable life—unique "flapper" is the only operational moving part.
- It's virtually maintenance-free. No wheels or gears to jam or wear out, no diaphragms to replace, no bags or compartments to empty.
- It's a multitask system. Free-skimming adjustable valve regulates water flow to assure proper cleaning speed while allowing simultaneous skimming of surface debris—both cleaning jobs are completed at once.
- It's engineered for your pool. Works flawlessly in both flat-bottomed and dish-shaped pools with a banked or radius cove.
- It's easy. Attaches to your pool skimmer in minutes without tools, so it can start vacuuming leaves, dirt, sand, insects and other debris from your pool immediately.
- It's backed by the world's largest pool equipment company. Got a question? Contact our toll-free consumer helpline. Live technical experts are there to help.
- One-year limited warranty. See warranty for details.
