Pool and Spa®

Scoop up  
savings up to  
**\$1,500\***  
a year...

just by changing  
your pool pump!

**Pool Pump Comparison:**  
Annual Cost to Operate

IntelliFlo® pumps have saved more money for pool owners than all other variable speed pumps combined. Now, the new IntelliFlo® Variable Speed pump offers you all these advantages:

- Cost savings up to **\$1,500** each year\*.
- Energy savings up to **90%** versus traditional pumps\*.
- 8 programmable speed settings and built-in timer to ensure the pump runs at **optimum speed and duration**.
- Dramatically quieter operation, as low as **45 decibels**—about 4 times quieter than most traditional-style pumps†.

## First then...

Pentair Water Pool and Spa® was the first to bring variable speed technology to market—a full 5 years ahead of every other manufacturer. But the leader never stands still. So we've taken full advantage of our head start to perfect these IntelliFlo® firsts:

- Ultra-efficient permanent magnet motors, as used in advanced hybrid cars.
- Precise matching of motor speed to your pool's needs.
- Superior water quality, better filtration and lower operational costs by running longer, at slower speeds.
- Totally enclosed fan-cooled (TEFC) motor design for long life and quiet operation.
- Built-in diagnostics protect the pump for longer service life.

## ...First now.

Today's IntelliFlo® Variable Speed Pump gives you all this and more:

- Proven reliability no competitor can match.
- Integrated keypad—no need to buy separately at extra cost.
- LCD screen displays actual wattage consumption and speed settings.
- Exclusive software and digital controls make programming a cinch.
