

Prowler® 710 Robotic Inground Pool Cleaner

By Pentair Water Pool and Spa®

Scrubs, vacuums and filters your entire pool

The fastest and most effective robotic cleaner in its class, the Kreepy Krauly® Prowler® 710 features true “plug and play” convenience. It operates totally independently of your pool’s circulation system to cover and clean any dimension, form or shape of inground pool up to 50 feet in length. A Jet Drive propulsion system with a single, powerful motor drives the cleaner and enables total pool cleaning from floor to water line.

Features include:

- Dual pressure wash jets lift sand, silt and algae off floors and walls—including surface pores where brushes can’t reach.
- Powerful vacuum action removes fine particles and larger debris.
- Internal filtration system removes contaminants and bacteria as small as two microns.
- No installation, no booster pump, no hoses and fully automatic. What could be easier?

An Eco Select™ Brand Product

As part of the Eco Select™ brand, the Kreepy Krauly Prowler 710 robotic cleaner is an eco-friendly, energy-saving equipment choice from Pentair Water Pool and Spa®.

The brand of choice for more than **3 million** pool owners worldwide.

Prowler[®] 710 Robotic Inground Pool Cleaner

Automatically clean your pool in an hour or less

The Kreepy Krauly[®] Prowler[®] 710 works while you relax, freeing you from the drudgery of manual pool cleaning and the drawbacks of more cumbersome and costly automatic cleaners. Engineered to clean any shape or type of residential pool, it quickly and efficiently scrubs, vacuums and filters without attention from you. Plus, Prowler won't get stuck by ladders and other underwater obstacles.

Time- and energy-saving features:

- Independently filters algae and other small debris.
- Cleans and scrubs from floor to water line and most pool steps.
- Vacuums all types of debris.
- Cleans any shape or type of pool in one hour or less.
- Entire cleaner *and* key components are certified to UL standards for safety by ETL.
- Filter bag provides more than three times the capacity of other cleaners to greatly extend the time between cleanings.
- One-year limited warranty. See warranty for details.

Prowler 710	
Recommended pool sizes	Up to 32 feet diameter for aboveground pools. Up to 50 feet in length for inground pools
Volume of water filtered	643 cubic ft. per hour
Filter specifications	Down to 2 microns
Filter bag capacity	19 quarts
Propulsion	Jet Drive System
Voltage in water	30V AC
Electrical specifications	115V / 50 Hz / 150 Watt
